Instructions

CPS 499 Creating Mobile Apps

Summer 2019 Final Project

For your final project, you are to design and create an original mobile app for the Android OS platform using the Java programming language with the Android Studio IDE.

Required Features:

- At least one menu screen implemented using a child class of **ListActivity**.
- At least one external web page, using implicit intents
- At least one additional screen (other than **MainActivity**), using explicit intents

Optional Features:

- Custom launcher icon
- Functionality on either/both Android phones and tablets using responsive design
- Persistent data using Shared Preferences

Your work must be original.

You must also provide adequate documentation, both in the Java code (comments) and a user document ("user guide).

You are free to use "external" resources (code, images, sounds, etc.). If you do, make sure you provide references to these in some form of documentation (i.e., code comments, user document).

Your completed project must be handed in no later than **Saturday, August 10, 2019 at 11:55 PM EST**.

No late submissions for the final project will be accepted under any circumstances.

How Do I Hand In My Project?

As with the assignments for this course:

1. Compress your final project's source code; for details, see *How to ZIP an Android Studio project's source code* on this Isidore site at *Android How Tos > PDF Format > How to ZIP an Android Studio project's source code*.
2. Use the Submit button to hand in your ZIPped source code file and documentation (MS Word, PDF, or text file).
