Lessons

> ### Lesson 8
>
> This lesson is based on Chapter 6 of Android Boot Camp (Jam! Implementing Audio in Android Apps). This lesson highlights (i) implementing a splash screen, and (ii) playing music (MP3) files.
>
> ---
>
> ### Lesson 7
>
> This lesson describes building a slightly different version of the Electric Car Financing app, which is described in Chapter 11 of Android Boot Camp (Discover! Persistent Data).
>
> ---
>
> ### Lesson 6
>
> This lesson is loosely based on Chapter 8 (Design! Using DatePicker on a Tablet) of Android Boot Camp. The lesson shows how to use responsive design with multiple layouts to develop an app that can then be used on a phone or tablet.
>
> ---
>
> ### Lesson 5
>
> This lesson is based on Chapter 5 of Android Boot Camp, 3rd Edition (Investigate! Android Lists, Arrays, and Web Browsers). The lesson is composed of four parts: Part 1 shows (i) creating the project, (ii) adding images and a custom launcher icon, (iii) adding string and dimensional resources, and (iv) creating the main activity layout to display a list; Part 2 shows coding the main activity to display a list and use implicit intents to display web sites; Part 3 shows (unlike what is shown in Chapter 5) adding one additional activity and coding the MainActivity to display the different images in the activity using intents with extras.
>
> ---
>
> ### Lesson 4
>
> This lesson discusses how to create the Medical Calculator app described in Chapter 4 of the course textbook (Android Boot Camp, 3rd edition).
>
> ---
>
> ### Lesson 3
>
> This lesson discusses how to create the Concert Tickets app described in Chapter 3 of the course textbook (Android Boot Camp, 3rd edition).

Lesson 2

This lesson discusses how to create the Healthy Recipes app described in Chapter 2 of the course textbook (Android Boot Camp, 3rd edition).

Lesson 1

This lesson discusses how to create the Hello Android World app described in Chapter 1 of the course textbook (Android Boot Camp, 3rd edition).
